

About us...

H.L. Electronics has been providing comprehensive electronic manufacturing services since 1985. We understand that our customers require flexible, expedited solutions to their manufacturing needs, and we have developed a streamlined manufacturing system to meet these needs. Our capabilities include consigned inventory or turnkey production, and can include in-circuit and functional test, along with product rework / repair services. We simply provide innovative, timely, cost effective solutions.

We Offer...

- Surface Mount & Mixed Technology Board Assemblies
- Wire & Cable Assemblies
- Total System Integration & Finished Goods Testing
- In-Circuit, Functional & System Level Test Services
- Sourcing, Procurement & Processing of Materials
- Full Turnkey Services (including mechanical assembly and packaging)

H.L. Electronics is a minority owned business. We operate a state-of-the-art, 30,000 sq. ft. facility.
